Republic of Slovenia in collaboration with European commission, partner countries and organizations is glade to invite you to attend and participate actively on regional conference:

SEE²: SCALING UP SOCIAL ECONOMY ENTERPRISES IN SOUTH EAST EUROPE

24. – 25. April 2017
Ljubljana – Slovenia

The main purpose of the conference is to boost social economy enterprises in the South East Europe (SEE) region countries: Slovenia, Croatia, Greece, Bosnia and Herzegovina, Montenegro, Serbia, Kosovo, Former Yugoslav Republic of Macedonia, Albania, Romania and Bulgaria. It provides a platform for exchange of public and private experiences across Europe for development of social economy enterprises in SEE, for establishing links and a common strategy of the region.

This unique event deals with the following horizontal issues:

- Promoting European values through partnerships and social economy;
- Promoting social inclusion and jobs creation through partnerships and social economy;
- Promoting bottom up creation of regional networks through development cooperation programmes and IPA in case of candidate countries and EU sources of financing – particularly how to better use European Structural and Investment Funds to develop social entrepreneurship and social economy as a whole.

The conference will operate on both top-down and bottom-up levels: firstly to create and develop synergies between States, local authorities and social economy actors; and secondly to boost social economy enterprises and identification and anticipation of their needs on the decision making policy levels. The final goal of the conference is to create a mid-term plan for boosting social economy enterprises in SEE. Participation on the conference is free of charge, you can register online [HERE](#).

Registration is available NOW and will be closed on 15th of April 2017. Get your free ticket today!

Welcome to **SLOVENIA** !
